

FCC

To Whom It May Pertain:

Please do not allow the Consumer Banker's Association the ability to modify Indiana's Telephone Privacy Law. As consumers, we are bombarded with trash, self-interest and personal financial gain on the part of others. No one should be given the ability to legally invade my privacy! Stand tall and just say NO to the request by the CBA and, for that matter, any other group trying to dilute Indiana's privacy laws.

Thank you,

David Pape
